Benin City, Nigeria

Full-Stack Developer with 6+ years of experience specializing in front-end and back-end development, workflow optimization, and cross-platform solutions. Proficient in modern web and mobile frameworks including HTML, CSS, JavaScript, Angular, Ionic, Laravel, and Node.js. Skilled in database design and integration using SQL and MySQL. Adaptable across diverse sectors including fintech and education. Focused on scalable architecture, user-centric design, and efficient delivery of robust applications.

Work Experience:

Full-Stack Developer | Surefill 247 Gas App

Apr 2025 – Present

- Developed and deployed a full-featured mobile gas ordering app (iOS/Android) using **Laravel** (back end) and **Ionic Angular** (front end).
- Integrated wallet system with **Paystack** for secure, real-time payments.
- Built key modules: gas orders, cylinder exchange, referral rewards, and real-time chat with media sharing.
- Implemented photo verification, delivery tracking, push notifications, and refill reminders.
- Created an admin dashboard for managing users, transactions, inventory, and promotions.
- Designed modular architecture to support upcoming features like bill payments and errands.
- Optimized app performance and ensured 24/7 reliability for Lagos Island users.

Full-Stack Developer | Comfort Tweadehands Witgoed & Apparaten

Sep 2023 – Jan 2024

- Developed a full-featured e-commerce website for a Netherlands-based home appliance and electronics business.
- Built the front end with **Angular**, implementing responsive product listings, search, and shopping cart features.
- Created the back end with **Laravel** and **MySQL**, including product management, order processing, and customer authentication.
- Integrated secure online payments using **Stripe** and implemented role-based access for admins.
- Delivered a seamless shopping experience supporting both second-hand and new appliances.

Full-Stack Developer | Brayniak Limited

Jan 2022 - Present

- Developed "**privypurse**" app using HTML, CSS, Bootstrap, JavaScript, Angular, TypeScript, and Ionic framework.
- Implemented backend with **Laravel, PHP, SQL, and MySQL**.
- Designed features for card debit, loans, pension payment, and bill payment.
- Incorporated payment gateway and asset transfer system.
- Collaborated with a team to ensure smooth integration of functionalities.
- Created organized APIs with **Laravel** and **Angular HTTP Client**.
- Developed access control system for admin panel using Angular.

Back-End Developer | Euzzit Limited

Feb 2021 - Nov 2023

- Implemented back-end functionalities for **Euzzit** app using **PHP/MySQL, SQL, and Laravel**.
- Built routes and endpoints to meet front-end requirements.
- Restructured database and improved efficiency and performance.

- Provided programming advice and collaborated with remote developers.
- Developed APIs for loan requests, repayments, and zit rewards.
- Created admin panel for app management using **Laravel Blade** and **HTML/CSS**.

Full-Stack Developer | Urban Service Hub

May 2020 – Aug 2022 (2 yrs 3 mos)

- Developed admin/control panel for **Urban Service Hub** app/website.
- Implemented **Google Maps** integration and payment gateway using **Paystack**.
- Utilized **HTML, CSS, Bootstrap, JavaScript**, and **jQuery** for front-end.
- Utilized **PHP/MySQL, SQL** for back-end development.
- Intercepted transaction circles for admin approval and dispute resolution.

Full-Stack Desktop Developer | ISNO Educational Center

Sep 2018 – Oct 2019

- Developed ISNO School App for managing student results.
- Implemented features for promoting students and generating transcripts.
- Utilized **C#, MS SQL Server, .NET** for full-stack desktop development.
- Automated result generation and student ranking.

- An attendance app using QR codes and biometrics (Separate Projects).
- Technologies: **JavaScript, HTML/CSS, PHP, MySQL, Bootstrap, C#**.

Core Skills

Programming Languages: PHP, JavaScript, C#, SQL

Frameworks & Libraries: Laravel, Angular, Ionic, React, .NET, Electron, Bootstrap, jQuery, Tailwind CSS

Back-End & Server-Side Development: Node.js,

Databases: MySQL, MS SQL Server

Education:

Ambrose Alli University

Jul 2019 - (Corona Virus Break) - Jul 2024

- **Bachelor of Science** in Computer Science
- Graduated 2022/2023 Academic Session.
- GPA: 4.20 / 5.0
- Issued: 5th August 2024

Complete Computers and Technology Institute

Nov 2017 - July 2019

- Computer Software Engineering
 - Issued 27th November 2020
-

Certifications:

- CISCO Networking Essentials | Certificate of Course Completion
 - Issued 25th May 2018
-

Academic Interests:

- Artificial Intelligence and Human-Computer Interaction.
- Applied Machine Learning in Urban Systems.
- UX-driven Intelligent Interfaces.
- Data-Driven Web Applications.
